

Student Supplies

- 1 box/package of plastic forks or spoons or paper plates or bowls
- 1 bottle of hand sanitizer
- 1 box of Kleenex
- 3 large containers of anti-bacterial wipes
- 1 skein of regular type yarn (not yarn with unusual texture)
- Backpack
- Personal water bottle (labeled with name) to be used in the classroom. Bottles with flip-lids or straws work best.
- Inside shoes - These are comfortable, rubber soled shoes that will be left at school to be worn in the classroom. Avoid shoes with lights or other distracting features. ***Please choose shoes that your child can easily put on and take off by themselves, but don't slip off during normal activity.*** Rubber soles are important because these shoes are occasionally worn outside during fire drills.
